DETAILED ACTION

This Office action is in response to the amendment filed September 23, 2004 in which claim 9 was canceled and claims 8, 11-13 and 17 were amended.

The rejection of the claims under 35 USC 112, second paragraph is withdrawn in view of the amendment to the claims.

Claims 1, 4-5, 8, 10-14 and 17 are rejected under 35 USC 102(e) as being anticipated by Staley (US 20010037821) for the reasons of record.

Claims 2, 3, 6, 7 and 15-16 are rejected under 35 USC 103(a) as being unpatentable over Staley for the reasons of record.

Applicant's arguments are directed to the fact that Staley does not use the term "buffer" to describe the acids/salts used in his invention for chemical-mechanical polishing.

As stated in the prior Office action, Staley teaches complexing agents wherein these complexing agents anticipate the claimed buffers of the present invention. While Staley does not label these compounds as buffers in paragraph 20, it is clear that since these compounds function as buffers in the present invention they would also function as buffers in Staley. Staley teaches that many of the compounds can exist in the salt form and that these compounds have been classified for illustrative purposes and that there is no intent to limit the uses of these compounds. Staley teaches that those of skill in the art will recognize that the compounds may perform more than one function and maybe in the form of a salt, acid or partial salt (see paragraph 23). This is shown in

Art Unit: 1714

paragraph 24 wherein the pH adjusters, regulators or buffers include the organic acids, acetic and citric. These acids are also listed as complexing agents.

The prior art made of record but not relied upon is cited for teaching multi-oxidizer slurry for chemical mechanical polishing.

1. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
